

WASTE SITE RECLASSIFICATION FORM

Operable Unit: 200-WA-1

Control No.: 2015-062

Waste Site Code(s)/Subsite Code(s):

2607-W9

Reclassification Category: Interim ☐ Final ☒Reclassification Status: Closed Out ☐ No Action ☐ Rejected ☒RCRA Postclosure ☐ Consolidated ☐ None ☐Approvals Needed: DOE ☒ Ecology ☐ EPA ☒**Description of current waste site condition:**

(What is the current physical state of the site? What activities have been performed?)

The septic system was abandoned in 1999 per the requirements of Washington Administrative Code 246-272-1851. When excavated, the tank was empty and dry. No samples were collected. The tank was backfilled in place to eliminate void spaces. Per an agreement with the Washington Department of Health, the septic system lids were left in place. Two posts and a WIDS Sitecode sign mark the location of the tile field.

Basis for reclassification:

(How does the site meet the reclassification status?)

The waste site should be reclassified to Rejected because it was abandoned per WAC codes in 1999.
